

CCE Partnership Grants 2025-2026 FAQ Sheet:

Community partner and learner requests for a match:

A call is out to community partners to submit project ideas that will be shared with learners. There is no guarantee that we can secure a match but will share broadly to our learners. The project idea submission date will be earlier than the date of grant submission so that we have time to share with our learners.

***Note-** It isn't required for a community partner to submit a project idea by January 6, 2025 to be an eligible partner but doing so will help us share with students looking for community/projects.

Submission dates:

1/6/2025 – Deadline for community partners to submit project ideas for us to share with learners.

3/3/2025 – Deadline for grant submission- Submitted by student in collaboration with community partner.

Who submits the grants:

The learner will submit the grant to CCE at - partnership@ucsf.edu . The grant proposal should be a collaboration from community partner and learner.

Can you resubmit for additional funding.

Projects can only receive funding once.
